

# Lech Pre-filtration Series

# Lech Series Pre-filtration

- User flush time recording scale
  - 3D rotary scraper technology, patented 3-in-1 dirt removal
  - High-flow direct flush
  - universal mounting structure
  - Easy to install with a male live connection
  - 316L stainless steel screen for greater corrosion resistance
- 
- ◆ **Retains minerals in the water, ideal for mothers and babies**  
New design of ultra-fine filter structure, significantly improved filtration accuracy
  - ◆ **3D rotary scraping, more thorough rinsing**  
Siphon high speed rinsing, no need for frequent dismantling and cleaning Double-sided abrasive scraping (screen scraping + bottle scraping)  $\pm 360^\circ$  rotation
  - ◆ **360° universal installation**  
No site restrictions, no conditions restrictions, real universal installation

**WFFM.D02**

Working flow :  $3\text{m}^3/\text{h}$

**WFFM.E02**

Working flow :  $4\text{m}^3/\text{h}$
